The Centre head of the institution Mrs. Poornima Ramesh, whose perspective is to collaborate child friendly curriculum laid out the execution plan which was demonstrated by the faculties and marked the occasion special for the children.

The extra essence added to this day was the fact that this event was hosted by the little 'senior' students of the wing -- KG2 and Mont3 to gladly welcome their fellow freshets of Nursery and Mont1 into their learning sphere.

The event was thematically merged with Nature and environmental awareness comprising of musical melodies of chirping birds, growling animals, relishing fruits and wriggly insects.
