

“SEE ME GROW”

At National Public School (NPS), the "See Me Grow" concept is an integral part of the kindergarten curriculum, focusing on the growth of plants and trees right from sowing the seed. This concept helps young learners understand the life cycle of plants, fostering an appreciation for nature and a basic understanding of biological processes. This report details how NPS effectively teaches this concept to kindergarten & Montessori students.

NPS designs its programs to be age-appropriate, engaging, and educational, ensuring that kindergarten students can grasp the "See Me Grow" concept with ease. The focus is on experiential learning, where students actively participate in the growth process of plants through seed planting activities, interactive storytelling, educational visual aids, classroom discussions and reflections, field trips, and nature walks. In this way, successfully introduced for all the three groups to the "See Me Grow" concept through a blend of hands-on activities. NPS helps young learners develop a foundational understanding of nature and the life cycles of plants. This approach not only educates but also instills a sense of responsibility and curiosity about the natural world.

EXPERITENIAL LEARNING OF NURSERY & MONT 1 STUDENTS DURING CO-CURRICULAR ACTIVITY.

KG 1 & MONT 2 STUDENTS EXPERIENCING SOWING THE SEED ACTIVITY

KG 2 & MONT 3 STUDENTS WITNESSING THE TRANSITION OF A SEED INTO A PLANT AND A NATURE WALK ACTIVITY
